"The CAM-ICU assessment takes less than a minute to complete," says Tina Chard, Occupational Therapist at RIH Kamloops. "Some of the staff did not understand the purpose behind the CAM-ICU and how important it is to the patient's care and therapy.

[preventing falls in hospitals agency for healthcare](#)

Each year, somewhere between 700,000 and 1,000,000 people in the United States fall in the hospital. A fall may result in fractures, lacerations, or internal bleeding, leading to increased health care utilization. Research shows that close to one-third of falls can be prevented. Fall prevention involves managing a patient's underlying fall risk factors and optimizing the hospital's physical ...
