In *Assessing Multilingual Learners*, author Margo Gottlieb presents the story of Ana, a newcomer to the United States and the American school system and, in a month-by-month format, reveals how assessment affects students, teachers, families, and school leaders. This book shows teachers how to collect, analyze, and act upon data about multilingual learners, with the goal of improving instruction ...

[backward design educational technology](#)

In their excellent book, *Understanding by Design*, Wiggins and McTighe propose the "Backward Design" framework for course design. This framework is "backward" only to the extent that it reverses the typical approach, so that the primary focus of course design becomes the desired learning outcomes.

[assessment for learning wikipedia](#)

In classrooms where assessment for learning is practised, students are encouraged to be more active in their learning and associated assessment. The ultimate purpose of assessment for learning is to create self-regulated learners who can leave school able and confident to continue learning throughout their lives.

[backward design definition the glossary of education reform](#)

Backward design, also called backward planning or backward mapping, is a process that educators use to design learning experiences and

instructional techniques to achieve specific learning goals. Backward design begins with the objectives of a unit or course “what students are expected to learn and be able to do” and then proceeds “backward” to create lessons that achieve those desired ...
